*Have you received financial advice from an Adviser in making this decision to change your investment?

Yes No

If yes, please ensure your Adviser completes the section (d).

Important notes for future contributions:

- If you're switching 100% of your current balance above, you have the option to:

1. contribute 100% of future contributions to the fund you've switched your current balance to; or
2. contribute 100% of future contributions to another fund other than the one you've switched your current balance to; or
3. contribute any percentage you decide to the fund you've switched your current balance to and the remaining percentage (so it equals 100%) to another fund.

- If you've switched your current balance above to seven funds, you must allocate your future contributions to these seven funds. You can decide the percentage amount to allocate to each fund. This may mean you contribute 100% to one fund only if you want.

You can hold an investment in a maximum of seven funds at any time.
